

## Why am I pro-life?

“A person’s a person, no matter how small” (Dr. Seuss). Being pro-life is so important in the world; God gave us life and the ability to value life. I am pro-life because adoption is good, babies are innocent, and loving Jesus is loving life.

Adoption is a better alternative than abortion. Adoption is so important when it comes to families and helping mothers choose a better choice than abortion. I am adopted, and I am so grateful that my birth mom chose life for me! There are so many families wanting to adopt because they may not be able to have children themselves. Adoption does not make you different from anyone else in this world. Everyone is valued and loved by God. Adoption helps parents who are unable to have children of their own experience the love children bring.

Babies are innocent and have a right to life. Babies never did anything; they are a gift from God. Babies have a purpose in life and they are valued. Mothers have such an awesome gift of a baby. God creates the baby because He wants life for that baby. We were once babies, and our mothers chose life for us, so we should do the same. Science even proves that life begins at conception. The number of aborted babies is so heartbreaking, to know that many innocent babies' lives are taken each year because of abortion. Abortion is wrong and we must stand against it. The 5th commandment states, “You shall not kill.” We must also pray that mothers choose a better option. Babies are just as valuable if not more valuable than us; we need to stand up for what is right.

Loving Jesus is loving life. God is good and so is life. “Every life is a gift and has something unique to contribute to the world.” (Pope Francis). Life is beautiful and such a

gift! It is important to value life; God loves us all and created us all in His image. especially the unborn, as well as the disabled and elderly. From conception to natural death, we must value life. Life is right, good, and important. We should respect life and take care of those suffering. The sick should be helped with what they need; it is unjust to not help someone who is suffering and needs help to get better. It is never okay to kill the elderly because they might be old or sick. Human life is valued and important.

God made life; let us respect that wonderful gift. I am pro-life because adoption is good, babies are innocent, and loving Jesus is loving life. Pro-life is loving life at all times and valuing that gift from God. Jesus taught us how to love one another, including loving the unborn babies too. God is a source of strength and courage for us all. Life is awesome and we can always turn to God for guidance.
