

## Why are you pro-life?

Abortion is a sad and emotional issue that has caused heated debates throughout history. As a Christian, I firmly stand as an advocate for the right to life. I understand that this topic is sensitive and personal, and I believe engaging in a thoughtful and respectful discussion is crucial to exploring the reasons behind my stance on being pro-life.

One of the key pillars of my pro-life argument lies in my belief in human life. Each human life holds a great deal of value and should be protected from conception until natural death. My belief is rooted in the principles of the Bible, respect for life, and the idea that every individual has the right to live, especially being God's child. A couple of years ago my sister got pregnant when she did not want to. Despite us all being excited, she was not. She concluded that she wanted an abortion. Now, in my life, I knew what abortion was. I also knew morally what was right and what was wrong. Me and my mom began to talk about it. I did not want her to do it because I would be an uncle, and I realized she would be killing a baby. It never happened. And I truly do believe it was by God's grace that it did not. My niece, is a beautiful girl, and I know my sister is happier every day with her. I told all my sisters to think of it as if it was them. Life is so special and valuable knowing the things a human can do and how smart we are.

Jeremiah 1:5 says, "Before I formed you in the womb, I knew you before you were born, I set you apart; I appointed you as prophet to the nations". It is utterly amazing that before we were even born God knew us! The Bible says God is a personal God. God knows what you desire before you desire it. He knows you want an abortion before

abortion even gets close to crossing your mind. And he hates it. He does not hate us for it, he hates the fact that abortion is a thing. One of the 10 commandments is "Thou shall not murder". When we support abortion, we support murder. And by doing that you are ruining, for all we know, a change in the world. It is so important that we value human life. God says, "We are fearfully and wonderfully made" knitted together by him, each of us! It is mind-blowing how we went from loving a newborn and being eager to have a newborn to supporting the idea of murdering a newborn. So, why am I pro-life? I am pro-life because it says it is wrong in the Bible and because human life matters. If anyone thinks differently, I hope this paper can change their idea.
